### **Online chat access**

### **Conducting online interviews**

A new video conferencing tool, Jitsi, has been introduced to the European (Job) Days Platform in order to make the job interview process for jobseekers and exhibitors more straightforward and user-friendly.

If you have an interview time slot confirmed with a jobseeker, simply go to the "My job applications" section in your dashboard menu and click on the button **"Start video chat"** to meet your candidate at the agreed interview time (see example below). You will be automatically redirected to a video call where the interview can take place.

E	11 February 20	21, Thursday			
	Status	Time (Europe/Brussels - CET)		Jobseeker's name	Additional information
I	Meeting set	12:00 - 12:30	<b>Tom Cruise</b> Test job JITSI		START VIDEO CHAT Show alternative contact options Cancel meeting

In addition, you will be able to browse all communication tools indicated by the jobseeker and **use them externally** to conduct an online interview with the candidate. To find this information, go to 'Job applications / Interviews' in your dashboard and click on the 'Show alternative contact options' button **during a live event** (see example below).

If necessary, the traditional e-mail and/or phone system can be used.

#### Participating in one-to-one chats

In order to participate in one-to-one chats and/or calls during a live online event, you need a valid Skype account (not Skype for Business!). You can provide your Skype ID when registering an E(O)JD account or later on when you go to 'Edit my organisation' in your Dashboard.

Once provided, your organisation's profile will be listed in the **"Chat with exhibitors"** section **during a live event** (see example below).

It is important that you are logged in to your Skype account so that jobseekers can easily reach you.
